

# AID FOR EDUCATORS

"Aid for Educators is nonprofit organization whose mission is to fund our teachers with supplies and projects."

NEWSLETTER February, 2014

vol. 17

## "Technology in Lower Grades"

The benefits of technology in the elementary classroom are broad and deep, especially with economically disadvantaged students. Many of these students do not have technology at home. When the students are introduced to low-cost tablets, in their classroom they become more engaged, more motivated and more excited about learning. An interactive smart classroom enables teachers to prepare dynamic multi-media lessons with hands-on activities.

Truly, the benefits of technology in education reach across all subjects and areas of interest. A current events teacher can pull up video of the day's top news events to foster classroom discussion. A history teacher can make historical subjects come to life with vivid images. Counterpoints can be examined, debate encouraged, and critical thinking helped to flourish with the use of the computer technology in a smart classroom.

[Like our facebook page and stay informed about our progress.](#)

Students feel proud when they learn to how to use the computer technology in their classroom, and they are also motivated to help their peers learn how to use the tablets and other smart technology. When students are motivated to learn and to work cooperatively, the benefits of technology in the classroom are clear for all to see.

**Aid for Educators** has helped two teachers with Android tablets for their students from low income families. Because of the response from the teachers and their students **Aid for Educators** plans to help more teachers with this technology for their classroom.

*Help us by writing a review about our goals & progress.*

The benefits of technology in the classroom go far beyond access to current information. When students are invited to participate in interactive technology-based learning, they take ownership of their educational process. No longer do students sit passively while a teacher talks at them.

The teacher's first step, complete our application

### [TEACHER APPLICATION](#)

The second step is for the public to donate.

**Our goal, for the 2014-2015 school year, is to supply five Android tablets to ten teachers. If we reach our goal over 200 students will be helped.**

# PARTNERS

Welcome to  
**amazon smile**

You shop. Amazon gives.

Amazon donates 0.5% of the price of your eligible AmazonSmile purchases to the charitable organization of your choice.

AmazonSmile is the same Amazon you know. Same products, same prices, same service.

Support **Aid for Educators** by starting your shopping at [smile.amazon.com](http://smile.amazon.com).

After logging into your Amazon account, search and select **Aid for Educators** to help our teachers.

Help Aid for Educators by registering your Kroger Plus card **ONLINE**, then click Kroger Community Rewards, enter your Plus card number, once your card is verified, just enter 91131.

Every time you use your card you will be helping our teachers and students.

## INSTRUCTIONS
