## "A4E Donates Tablets & Books"

Aid for Educators has helped two more teachers in an economically disadvantaged school. Thanks to recent donations these dedicated new teachers were able to help their students. Our previous [newsletter](#) spoke about the importance of technology in lower grades.

*Project Request: I am currently working on a project to prepare my students for the future to come in this world of technology. I would like for my students to be prepared by the STEMS curriculum, hence we need the technology to do so. I was extremely happy to know that Aid for Educators will be donating 7" tablets to a new to five year elementary teachers in Texas. This grant would be very beneficial since I am working at a Title I school and my students live in a very low socio economic area. Our students and teachers do not have the technology to prepare them for their future. This grant would mean the world to our students and our future. Thank you, S Jimenez, 4<sup>th</sup> Grade*

*Thank you so much for the books my class is excited to start reading the new books. Thank you, Christina Herrera, 1<sup>st</sup> Grade*

A4E is grateful to help these teachers and their students. In order for us to continue we need your donations. We are in the process of collecting funds to start giving to our teachers in August and September.

*I wanted to thank you for your great donation! The kids are having a wonderful time using their new technology resources!! I have been able to download excellent educational applications and ebooks using the extra memory cards you sent us. The kids are also using the tablets to research information for their writing assignment. Thank you for helping starting teachers like myself, so that together we can better prepare these students for a bright future. S Jimenez*

*The mediocre teacher tells.  
The good teacher explains.  
The superior teacher demonstrates.  
The great teacher inspires.*

**Our goal, for the 2014-2015 school year is to provide more Android tablets and supplies to more teachers and their students.**

A4E wants, in a small way, to motivate and inspire our teachers with the tools they need for their students.
