

## Teacher Application Form

Our mission is to directly fund Texas teachers and lessen the burden of spending their own money. Let us know how Aid for Educators can help, either with a gift card, classroom/student supplies, materials for a special project or technology.

Our main goal is to help teachers in Title 1 public schools from grades K-12 who are new or with less than five years experience.

We accept all teacher applications and will be kept on file. The budget for each teacher is \$200-400 per application submitted, depending on request. It will take 2-4 business days to process your application. You will be notified, by email, when your application has been accepted. All applications are kept on file and may be funded at a later funding month. \*

Most applications will be awarded in the months of August, September, January and February of the current school year.

\* Our primary focus is to award new to five year teachers in Title 1 public schools.
